## TE.4

# UNCONSTRUCTED ROAD RESERVES

---

### Objective

To ensure that all due consideration is given to any request for a road closure on unconstructed road reserves.

To ensure that such works are undertaken without impact on existing budget works, at the cost of the parties benefiting from such works.

### Policy

No unconstructed road reserves shall be closed except by resolution of Council.

Council will not agree to road closures where there is:

1. Considered to be long term merit for retention of the road reserve;
2. Remnant vegetation of value;
3. An existing or potential wildlife corridor.

All roads requested for construction on existing old unbuilt road reserves, or the extension of roads onto unbuilt portions of existing road reserves shall be resolved by Council and shall be funded totally from non-Council funds, ie by the applicant and/or Government grants or groups of land owners served by such roads.
