

BUSSELTON-FLINDERS BAY RAIL TRAIL

The Shire of Augusta Margaret River is working in partnership with the Shire of Busselton and The National Trust WA to prepare a masterplan for the entire length of the rail trail. A steering committee has been appointed with representatives of these organisations and is overseeing investigations into trail alignment and construction standards, land tenure, environmental issues, aboriginal heritage, business planning/marketing and preparation of a communications plan.

The Shire has identified construction of the section from Gnarawarry Road to Redgate Road as a high priority. For further information, please contact David Nicholson on 9780 5282 or davidnicholson@amrsc.wa.gov.au.
