

Additional Information

I first put my hand up for Council because I care deeply about this place and the people who live here. That passion has only grown stronger. I want to continue to make a difference by:

- Protecting what we love about our environment and lifestyle.
 - Advocating for more investment in our schools, hospitals, health and mental health services.
 - Pushing for better, affordable housing, water security and infrastructure so families and businesses can thrive.
 - Building a connected, supportive community where everyone has the chance to reach their potential.
- I bring a mix of experience, knowledge and local commitment that makes me an effective representative.:
- Four years of experience as a Shire Councillor, currently serving as Deputy Shire President.
 - Chair of the Advocacy Committee, standing up to Ministers, for more support for our region.
 - Worked as a teacher, small business operator and farmer-giving me a practical understanding of business, education and agriculture.
 - Nearly 20 years of living here, raising a family, working in conservation and developing a constructive leadership approach.

If re-elected, I'll continue to work hard to be a strong, consistent voice for our whole community:

- Championing our environment- our coastlines, forests, waterways and wildlife.
- Supporting effective local action on climate change.
- Ensuring Council is as efficient, effective and financially responsible as possible.
- Listening carefully to the community, consulting widely and following through with action.
- Promoting a collaborative and diverse Council that work together for everyone.

I love our area and our community and I want to keep working hard to protect what we value, strengthen connections, and ensure that it continues to remain a wonderful place to live, work and raise a family.
