

Additional Information

I have proudly called Margaret River home for the past 15 years, building my life, family, and businesses in this remarkable community. As the owner of three local businesses, I know first-hand both the opportunities and the challenges that come with living and working here. I have always believed in giving back, which is why I actively support youth programs, sponsor community events, and create opportunities for others to grow. I also serve as a board member of the Margaret River Business Network, working closely with local operators to strengthen our regional economy.

I am standing for Council because I believe our Shire needs a voice that reflects the experiences of both individuals and businesses. I want to bring a strong business perspective into decision-making, ensuring that local policies are practical, balanced, and deliver real benefits for residents.

Supporting small businesses is at the heart of my vision. They are the backbone of our local economy and the heartbeat of our towns. I will work to create a council environment where small businesses can thrive by reducing unnecessary red tape, improving communication between council and business owners, and ensuring that planning and development decisions take into account the needs of local operators. I will advocate for initiatives that encourage innovation, support local employment, and attract sustainable tourism that benefits not burdens our community. I also believe that protecting our environment is fundamental to our identity and future. I will support practical, sustainable initiatives that safeguard our environment, promote renewable practices, and ensure growth is managed responsibly. My vision is for a Shire that is inclusive, resilient, and future-ready. A Shire that listens, respects, and values all voices. With your support, I will work hard to represent you with integrity, passion and a commitment to building a community where individuals, families, and businesses can thrive.
