<b>FILE REFERENCE</b>	ENV/93
<b>REPORT AUTHOR</b>	John McKinney, Coordinator Environment Landcare Services
<b>AUTHORISING OFFICER</b>	David Nicholson, Acting Director Sustainable Development and Infrastructure

---

This addendum, published on 4 June 2020, provides minor amendments to dot point 4 and 5 of the 'In Brief', and a revised recommendation. Omissions shown with ~~strike through~~ and additions shown with underline.

#### REVISED IN BRIEF

- In June 2018 Council resolved to commission trail consultants, environmental reports and consider Aboriginal Heritage requirements to undertake a feasibility analysis and prepare a concept plan for extension of a coastal trail between Dead Finish and the Cape Leeuwin Lighthouse.
- There are significant environmental and cultural values identified through that assessment that were presented to a Council briefing in February 2020.
- These values were discussed at an Augusta Interpretation Plan and Trails Community Reference Group meeting in May 2020. The group indicated a preference to continue planning for a dual use path rather than reducing the standard of the path.
- In May 2020, Council received a presentation from local Wadandi representatives who requested Council engage in development of a "Healthy Country Plan" (HCP) for ~~any site~~ a range of sites across the Shire ~~is considering undertaking work on~~, including this area. The HCP would explore all cultural and heritage values with local Wadandi people and determine the values of the site prior to making any further decisions in relation to this project. ~~This~~ For this area, the HCP would be funded by the Cape Leeuwin Trail project budget.
- ~~Further investigation is required before the feasibility analysis can be completed and provided to Council for consideration.~~
- In the interim, no further construction should take place until these issues are resolved.

#### REVISED RECOMMENDATION

That Council:

1. Notes the outcomes of the preliminary trail analysis, flora and fauna surveys, initial cultural consultation and consultation with the Augusta Interpretation Plan and Trails Community Reference Group;
2. Notes the need for a detailed archaeological and ethnographic survey;
3. Authorises the CEO to engage with Wadandi representatives and source relevant consultants to undertake a Healthy Country Plan for the area from Dead Finish to the Cape;
4. Notes that no construction will occur ~~in the 2020-21 financial year~~ whilst this plan is being developed; and
5. Receives the Healthy Country Plan once complete with the recommendations for the area.
