FILE REFERENCE	LND/156
REPORT AUTHOR	Matt Cuthbert, Manager Planning and Development Services
AUTHORISING OFFICER	Nick Logan, Director Sustainable Development and Infrastructure

IN BRIEF

- In April 2018, Council resolved to initiate the review of the Shire's Local Planning Strategy and Local Planning Scheme No. 1.
- The draft Strategy and Scheme have been guided by an extensive pre-consultation program undertaken over the last 2 years.
- Preparation of the Local Planning Strategy has progressed to the point where it is ready to be advertised for formal public comment.
- The revised Scheme (draft Local Planning Scheme No. 2) must first receive consent from the WAPC before it can be advertised.
- It is recommended that the Local Planning Strategy be released for public comment immediately with the Scheme being sent to the WAPC for approval prior to a separate process of consultation.

RECOMMENDATION

That Council:

1. Notes the intention of staff to advertise the draft Local Planning Strategy (attachment 1) for a period of 90 days, in accordance with section 13 part 3 of the *Planning and Development (Local Planning Schemes) Regulations 2015*; and
 2. In accordance with section 21 part 4 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, proceeds to advertise the draft Local Planning Scheme (confidential attachment 2) without modification and provide copies of the document to the WAPC for their consideration.

BACKGROUND

Local Planning Scheme No. 1 was gazetted in 2010. Since that time, it has been regularly amended including three omnibus amendments which have kept the scheme in line with changes to the state government planning framework such as the Local Planning Regulations Scheme which include the model scheme text.

The Shire's Local Planning Strategy was approved by the WAPC in 2011. A minor review was undertaken in 2016 which resulted in the incorporation of the Shire's Local Tourism Planning Strategy, and the inclusion of detailed criteria guiding the re-subdivision of rural residential land.

In April of 2018, Council resolved ...pursuant to Regulation 66(3) of the Planning and Development (Local Planning Schemes) Regulations 2015 to recommend to the Western Australian Planning Commission that:

1. *The Shire of Augusta Margaret River Local Planning Strategy should be reviewed to ensure that it addresses contemporary planning, economic, social and environmental issues as will be informed by a comprehensive consultation process; and*
2. *The Shire of Augusta Margaret River Planning Scheme No.1 should be amended to accord with a revised Strategy.*

At the ordinary meeting of 14 August 2019, Council made the following decision with respect to the Local Planning Strategy:

1. *In accordance with clause 12(1) of the Planning and Development (Local Planning Schemes) Regulations 2015, provides the draft LPS2036 (Attachment 1) with confidential amendments included, to the Western Australian Planning Commission (WAPC) and request consent to advertise;*
2. *Notes that the WAPC may require changes to the document prior to providing its consent, and that staff will make Council aware of any such changes prior to advertising;*
3. *Notes that the document will be subject to further formatting and mapping improvements prior to advertising; and*
4. *Thanks all of the individuals and groups who have provided input throughout the pre-consultation period and encourage the community to continue to engage in the forthcoming consultation process.*

Council's decision of 2019 authorises staff to commence advertising, however the matter is now reported to Council for the purposes of determining when consultation should commence and in order that Council can note the changes required by the WAPC.

THE PROPOSAL

Adoption by Council of the recommendations included in this report, will result in:

- The Draft Local Planning Strategy being advertised for a period of public consultation which will occur between the beginning of September and the end of November; and
- The Draft Local Planning Scheme No. 2 being forwarded to the WAPC for their consent to advertise. It is unknown as to how long this process will take however it is anticipated that this will allow advertising of the document to occur early in 2021.

PLANNING FRAMEWORK

The Planning and Development (Local Planning Schemes) Regulations 2015 (the Regulations), require that:

(1) On completion of the preparation of local planning scheme documents or the consideration of local planning scheme documents proposed by an owner of land in the scheme area, a local government must resolve —

- (a) to proceed to advertise the draft local planning scheme without modification; or*
- (b) to proceed to advertise the draft local planning scheme with modifications; or*
- (c) not to proceed to advertise the draft local planning scheme.*

The WAPC has 90 days “or such longer period as the Minister or an authorised person allows” to provide its consent which can be inclusive of the need to make modifications prior to advertising.

CONSULTATION

Notwithstanding that pre-consultation is not required by the regulations which guide the preparation of a scheme and strategy, the following consultation has been undertaken by staff to date:

- A series of workshops to explore with Councillors and the community the major issues impacting on the sustainable development of the Shire
- Preparation of Issues and Options Papers as an outcome from each workshop, detailing for further consideration by the community, planning issues and suggested responses.
- Ongoing discussion with the community using the Issues and Options papers as the basis for consultation via a dedicated ‘Your Say’ web page and conventional web and print means.
- Face to face consultations with landowners within discreet precincts where the draft documents contemplate a change to the applicable planning rules or designations
- Commissioning of two consultants reports on matters where knowledge gaps exist being site drainage and improving sustainability in residential dwellings
- Discussions with experts within the local community on matters of mutual interest such as Nature Conservation Margaret River, Lower Blackwood LCDC, local planning consultants and architects.
- Regular Council briefings.
- Regular briefings to planning counterparts working in State Government.

The Regulations set a minimum time period over which Strategy must be advertised for public consultation being 21 days. Consistent with the high level of consultation that has been undertaken to date, a period of 90 days is recommended. This will allow for placed based consultation exercises to be organised and held throughout the Shire.

The statutory time period for advertising a Scheme which is set by the Regulations is 90 days. Allowing for the time required to achieve WAPC consent, it is likely that the Scheme will be advertised between January and March 2021.

DISCUSSION / OFFICER COMMENTS

Draft Local Planning Strategy

The version of the Strategy which is now ready to be advertised (see Attachment 1) is generally consistent with that endorsed by Council for referral to the WAPC for their certification which has now been achieved. In certifying the document, the WAPC required the Shire to make some notable changes being:

Modification	Reason given by WAPC
Remove the following areas from "rural residential" designation and replace with the "rural" designation: <ul style="list-style-type: none"> • Lot 101 Kilcarnup/Burnside Rd, Kilcarnup (BHL site 2). • Lots 1, 2, 3, 4, 503, 918, 5021 & 23 generally bounded by Wooditch Rd, Orchid Ramble and the Margaret River (to the west/north); Caves Road (to the east) and Wallcliffe Road (to the south). • Lot 2 & 94 Caves Road, Margaret River (BHL site 4). 	Consistency with LNSRS & compliance with SPP3.7 Planning in Bushfire Prone Areas. Intensification of areas are not supported by DFES for residential intensification.

Shire response:

The owners of the lots affected by this change have been notified in writing by the Shire. It is likely that owners will raise strong objections to this change given that the lots in question have been identified for many years as having potential for more intensive subdivision and development. The most constructive way of dealing with these concerns is to bring them to the attention of the WAPC who will need to make a final decision on the matter post advertising.

Modification	Reason given by WAPC
Insert directions for the consolidation of the existing conservation themed zones below into a single Environmental Conservation zone: <ul style="list-style-type: none"> • Leeuwin-Naturaliste Ridge Conservation • Leeuwin-Naturaliste Ridge Landscape Amenity • Southern Ocean Foreshore Protection • Bushland Protection 	Foreshadows zone name changes. Limiting zones to those prescribed in the Regulations.

Shire response:

Staff had sought to retain the Leeuwin Naturaliste Zones however this has been rejected by the WAPC. In order to retain the unique development controls provisions which relate to this land a new Special control Area designation will need to be created and applied via the new Scheme (see discussion below).

Draft Local Planning Scheme

The form of the draft Scheme closely follows the requirements set out by the State Government as detailed in the Regulations. The draft Scheme, which can found at attachment 2, is colour coded to allow Councillors to distinguish text that is required/encouraged by the WAPC (black) and text that has been added by staff (blue).

In summary, the key elements of the draft Scheme compared with LPS1 are:

- An increased focus on environmental protection;
- An increased focus on Landscape Protection; and
- The removal of red tape to avoid the need for Development Approval for low risk development.

Items of particular note are set out below together with their clause number for easy reference:

Zones

- The General Agriculture/Priority Agriculture are merged to create the 'Rural' zone (**see maps**)
- The Southern Ocean Foreshore Protection / LN Ridge Landscape Amenity / LN Conservation/Bushland Protection are merged to create the 'Environmental Conservation' zone (note the inclusion of a new Special Control Area (SCA?) which retains all of the landuse controls previously implemented via the LN zones. (**see maps**)
- The extent of Town Centre zoning in Augusta is reduced (**see maps**)

Zoning table (clause 17)

- Grouped dwelling will become X use in Town Centre meaning they will be prohibited.
- Liquor store large – X everywhere
- Wineries – A in town centre (definition now includes consumption), meaning the use can be considered whereas it was previously prohibited.

Environmental Protection (clause 49)

- Inclusion of an environmental assets map to guide decision making in a way which protects significant environmental features
- A hierarchy of consideration for land clearing with retention being most preferred and replacement (offsets) being least preferred.
- A prohibition of aesthetic dams and dams not required for agricultural production e.g in the rural residential zone.
- Greater protection of street trees.

Landscape Protection (clause 51)

- The introduction of 'visually sensitive sites' designation to protect sites under pressure for development in exposed locations.
- Balancing the need to prohibit reflective colors with the sustainability benefits of light colored roofs.
- A greater suite of planning tools to allow planners to influence the landscaping, setbacks, scale, intensity of land use and elevation of development to minimize landscape disruption.

Reducing Red Tape

- The 5m side setback applicable to the R5 and R2.5 coded areas is removed for structures located behind the dwelling such as sheds, water tanks and the like (**clause 65**).
- The Gnarabup Special Control Area has been removed, thus removing the need for development approval for all development types, which is inconsistent with the rules for development applicable elsewhere across the Shire. Applicable development standards are retained at **ADS9**.
- The role of building envelopes in determining the position of development is down graded with only those existing envelopes listed in the scheme to be carried forward. This is reflective of the increased role of BAL contours and landscape considerations in the decision-making process (**clause 52**).
- The Schedules which form part of the Scheme have been reduced from 200 pages (LPS1) to 50, making the scheme less complex and more user friendly.
- Proposals for more intensive use of existing rural residential areas will no longer require 'scheme amendments' but can be facilitated via the preparation of 'structure plans' reducing time and cost (**clause 63**).
- Bushfire Management Plans will not be required for low risk proposals such as Bed and Breakfasts (**clause 30**).
- The 7m wall height limit has been removed with height limits to be enforced by the continued application of an 8m overall building height limit of 8m, providing greater flexibility for roof designs, and avoiding the need for a Development Application where a variation was requested. (**clause 39**)

- Bed and Breakfast becomes an exempted for of development meaning owners wishing to rent a room of their house in a hosted capacity can do so without approval. **(Schedule A)**

STATUTORY ENVIRONMENT / LEGAL IMPLICATIONS

The review of the Local Planning Scheme and Strategy is being progressed following the detailed statutory process outlined by the *Planning and Development Act 2005*, and the Planning and Development (Local Planning Schemes) Regulations 2015

SUSTAINABILITY IMPLICATIONS

Environmental

The *Planning and Development Act 2005*, empowers schemes to deal matters of environmental importance such as:

The conservation of the natural environment of the scheme area including the protection of natural resources, the preservation of trees, vegetation and other flora and fauna, and the maintenance of ecological processes and genetic diversity; and

The conservation of water.

Social

The *Planning and Development Act 2005*, empowers schemes to deal with infrastructure of benefit to society such as:

Public works and undertakings of any kind including lighting, water, sewerage, drainage, public transport and associated facilities on land and water;

The reservation of land for public purposes; and

The provision and location of public facilities and conveniences and any other objects or works on the land.

Economic

A properly functioning, easily understood and contemporary planning framework is an important contributor to a sustainable economy.

ADVOCACY

There are elements of the draft documents which differ from the 'standard' content recommended by the WAPC and applied across the state. Staff have and will continue to advocate for bespoke content where it is necessary to address the unique environmental, social and cultural elements of the Shire.

IMPLICATIONS OF ALTERNATIVE RESOLUTION

The Regulations require that the Local Government advertise a Local Planning Strategy as soon as reasonably practicable after certification of the document by WAPC. It is therefore presented to Council for noting only. It is however possible for Council to choose not to advertise the draft Scheme at this time.

It is recommended that any potential modifications to the Scheme would be best discussed following a period of public consultation which will deliver additional information and perspectives which will go towards influencing the final outcome.

IN BRIEF

- *Local Government (Administration) Regulations 1996* requires all local governments to have a Community Strategic Plan and Corporate Business Plan.
- The Department of Local Government , Sport and Cultural Industries (DLGSCI) provides an Integrated Planning and Reporting (IPR) Framework which details best practice advice and guidance for these plans.
- The Corporate Business Plan must cover a minimum of four years and be reprioritised annually to identify the key activities Council will undertake in response to the Community Strategic Plan.
- The Community Strategic Plan is required to be reviewed at least every four years, with the framework advising a minor review every two years and a major review every four years.
- Officers have completed a minor review of the Corporate Business Plan and the Community Strategic Plan.
- It is a requirement for Council to adopt these documents by absolute majority.

RECOMMENDATION

That Council:

1. Endorses the Corporate Business Plan 2020-24 as presented in Attachment 1; and
 2. Endorses no changes to the Community Strategic Plan 2036 as a result of the minor review and notes the major review is due to occur in 2020-21.

BACKGROUND

Under the Local Government (Administration) Regulations 1996, all local governments in Western Australia are required to have developed and adopted two key documents: a Community Strategic Plan (CSP) and a Corporate Business Plan (CBP) which are supported by a suite of long term informing strategies. The informing strategies include the Long Term Financial Plan, Asset Management Plan and Workforce Plan. Collectively these documents drive the development of each local government's annual budget.

The Integrated Planning and Reporting (IPR) Framework details best practice advice and guidance on how local governments should approach ongoing monitoring and review of its strategic approach.

The Shire's CSP 2036 was endorsed by Council in September 2018 (OM2017/238), following a major review over a 12-month period and a dedicated Community Reference Group. The CSP 2036 outlines six guiding principles and five key result areas which are achieved through the deliverables articulated in the CBP.

The CBP sets out deliverables as projects/activities and services which are achieved through the annual budget. CBP progress reporting is undertaken quarterly and reported to Council. The budget details capital and operating expenditure by business area, based on year one of the CBP. Budget progress reporting is undertaken monthly and reported to Council.

CONSULTATION AND ADVICE

External Consultation

Community engagement is not required for a minor review of these documents. The Community Perception Survey completed in November 2019 (676 respondents) has informed this work.

Internal Consultation

The CBP 2020-24 was developed through internal engagement with all business areas. Strategic workshops with Councillors held in December 2019 and February 2020 have also informed this work. Review of the CSP has been determined through the Executive Leadership Team.

DISCUSSION / OFFICER COMMENTS

The CSP and CBP together articulate the strategic direction of the Shire organisation for staff and the community. The CBP puts the long term strategic vision to action and shows alignment of activity to the annual budget 2020-21. These documents require ongoing monitoring and review through the Shire Executive and Councillors in order to deliver meaning.

Corporate Business Plan

In accordance with the Local Government (Administration) Regulations 1996 and IPR Framework, the Shire conducts a minor review of the CBP annually and submits modifications to Council for adoption by an absolute majority.

This review has delivered:

- A clear four year focus for the organisation
- An achievable level of key projects across all key result areas, and
- Development of business unit plans to show integration with informing strategies

The focus for 2020-24 is to develop the place-based approach across our diverse community and to be an “easy-to-engage with” Shire. This is reflected in the 21 key projects for the organisation (page 29) and the CEO Organisational Targets (page 44). The CEO targets are:

- 1A. Corporate Business Plan (CBP) is delivered
- 1B. Continued leadership efforts are clearly demonstrated
- 2A. A place-based engagement model is integrated into the Shire’s community engagement framework
- 2B. Maintain a focus on developing strong local relationships and ensure local place based input is considered in decision making
- 3A. Develop a lobbying plan in collaboration with regional stakeholders
- 4A. Support Councillors in their role by ensuring they are fully informed and receive timely information
- 4B. Develop a holistic organisational improvement plan through a business best practice framework which enhances service results, value, innovation and sustainability through the implementation of service reviews

All other high level activities/projects are detailed by business unit in the second half of the document. The list of key projects has been refined through various workshops with Council including the establishment of guiding principles for responding to the COVID-19 pandemic.

A four year view of the Capital Works Program is also included, followed by profiles for the Long Term Financial Plan, Asset Management Plan and Workforce Plans. Progress against key projects and the Capital Works Program will feature in quarterly reporting to Council and community.

The next edition of the CBP will focus on expanding business plans to show more detailed levels of service information.

Community Strategic Plan

The Local Government (Administration) Regulations 1996 require the CSP to be reviewed at least every four years, with the framework advising a minor review every two years and a major review every four years.

A minor review of this plan was due to occur in 2018-19 but was deferred a year due to recruitment of the Shire's Chief Executive Officer who is a key participant in the process. The minor review then commenced in 2019-20, with the key inputs being:

- Community Perception Survey completed in November 2019 (676 respondents)
- Strategic workshops with Councillors held in December 2019 and February 2020

In line with best practice, the survey was conducted impartially by a third party who could provide sector benchmarking. The survey delivered an "Overall Performance Index Score" which is a combined measure of the Shire as a place to live and as a governing organisation. Through this survey the Shire received an overall performance index score of 69 out of 100, which is 3 index points above the industry standard for Western Australia.

The survey highlighted eight priority areas and detailed feedback across 46 service profiles. The areas identified by the community for improvement are:

1. Value from Council Rates
2. Economic development
3. Playgrounds, parks and reserves
4. Building and maintaining local roads
5. Footpaths, trails and cycleways
6. Conservation and environmental management
7. Waste collections
8. Animal control

Councillors met in December 2019 and again in February 2020 to reflect on this feedback from the community and to set the priority areas going forward. These discussions highlighted the practicality and potential benefit of focussing Shire efforts on a major strategic review in 2020-21, rather than proceeding with superficial minor changes of the CSP. These discussions raised the benefit of place-based community engagement at this time, as well as the need for ongoing service improvement review across the organisation to support the process.

As such, the Shire have determined this minor review results in no changes to the CSP 2036 and submits to Council for adoption by absolute majority, noting a major review will commence in 2020-21.

STATUTORY ENVIRONMENT / LEGAL IMPLICATIONS

Section 5.56 (1) *Local Government Act 1995* requires local governments to have in place a plan for the future. Section 5.56 (1) *Local Government Act 1995* and Regulations 19C and 19DA of the Local Government (Administration) Regulations 1996 establishes the requirements for a CSP an CBP.

19c. Strategic community plans, requirements for (Act s. 5.56)

19DA. Corporate Business Plans, requirements for (Act s. 5.56)

- (1) A local government is to ensure that a CBP is made for its district in accordance with this regulation in respect of each financial year after the financial year ending 30 June 2013.
- (2) A CBP for a district is to cover the period specified in the plan, which is to be at least 4 financial years.
- (3) A CBP for a district is to —
 - (a) set out, consistently with any relevant priorities set out in the strategic community plan for the district, a local government's priorities for dealing with the objectives and aspirations of the community in the district; and
 - (b) govern a local government's internal business planning by expressing a local government's priorities by reference to operations that are within the capacity of the local government's resources; and
 - (c) develop and integrate matters relating to resources, including asset management, workforce planning and long-term financial planning.
- (4) A local government is to review the current CBP for its district every year.
- (5) A local government may modify a CBP, including extending the period the plan is made in respect of and modifying the plan if required because of modification of the local government's strategic community plan.
- (6) A council is to consider a CBP, or modifications of such a plan, submitted to it and is to determine* whether or not to adopt the plan or the modifications.
*Absolute majority required.
- (7) If a CBP is, or modifications of a CBP are, adopted by the council, the plan or modified plan applies to the district for the period specified in the plan.

12. MOTIONS FROM MEMBERS OF WHICH PREVIOUS NOTICE HAS BEEN GIVEN

12.1 WALGA South West Prospectus – Removal of Reference to Timber Industry Development – Cr Meldrum

At the 12 August 2020 Ordinary Council Meeting, Cr Meldrum gave notice of the following motion:

MOTION

That Council notes the draft South West Prospectus is being developed by the WALGA Zone and requests the Zone remove the reference to the timber industry development because;

1. AMR Shire is opposed to native forest logging; and
2. The prospectus was being compiled on agreement from all 12 participating Walga Zone Councils and should a Council wish to lobby for issues in their own Shire to do so.

12.2 Endorsement of Forests for Climate Campaign and Forests for Life Plan – Cr Godden

At the 12 August 2020 Ordinary Council Meeting, Cr Godden gave notice of the following motion:

MOTION

That the Council endorses the Forests for Climate Campaign and the Forests for Life Plan.
