

Building Fees

July 2019

Fees payable for applications and permits relating to the *Building Act 2011* are set by legislation, being the *Building Regulations 2012* for the application fee, *Building Services Regulations 2011* for the Building Levy, and the *Building and Construction Industry Training Fund and Levy Collection Act 1990* for the BCITF Fee.

Estimated value of construction

The estimated value is defined in the *Building Regulations 2012*, Schedule 1:

- Contract value where the value includes the **relevant components** – all goods including manufactured goods; labour; services necessary; fees payable; overheads; profit margin; or
- Other than under a contract i.e. owner/builder, the sum of the value (including GST) of the **relevant components** mentioned above.

If the fees relating to an application are not considered appropriate, then the estimated value of work may be determined by the local authority.

Fee Structure

Certified Application Building Permit BA01	Type of Fee	Fee
Class 1 or 10 (houses, sheds etc.)	Application fee	0.19% of building value; min \$105.00
