

How to give and receive Trauma-Focused Support

The strength and resilience of the community of Margaret River and surrounding areas should be acknowledged considering the tragic events in Osmington. We also acknowledge that in a tight-knit community there can be longer-term impacts of traumatic events.

To help our community understand these impacts and our responses, and to gain understanding to help others, free education sessions are being hosted by angelhands Inc. They specialise in helping people and communities recover from extreme trauma.

Small group sessions with specialists from angelhands will be supported by Waratah and the Red Cross. Sessions are designed for different community members; however, people can self-select any session they feel will provide them with the guidance they need.

To book a place in one of these sessions, please visit trybooking.com/WICO
