

Free Construction and Demolition (C&D) Waste Toolbox Program

Under the WasteSorted funding grant, Level 5 Design has developed an on-site toolbox education program in C&D waste and resource recovery to facilitate better recovery, sorting, and transfer of C&D waste materials for reuse in regional roads and other local infrastructure.

The toolbox information is specifically targeted to those in the C&D industry, contractors, product suppliers, builders etc. and discusses the benefits from cost savings and reduced risk to environmental footprint reduction.

The free sessions run for approximately an hour and will be held throughout the South West at various waste facilities and local government venues over the coming months.

Please contact Christina Chin on: christinac@level5design.com.au for all queries or to register your attendance at one of the sessions below.

Date	Time	Venue
Thursday 6 th May	Session 1: 11.00am Session 2: 1.00pm	Dunsborough Waste Facility, Vidler Rd, Naturaliste <i>*Focusing on Concrete Crushing Program</i>
Friday 7 th May	Session 1: 1.00pm	Dunsborough Waste Facility, Vidler Rd, Naturaliste <i>*Focusing on Concrete Crushing Program</i>
Monday 17 th May	Session 1: 11.00am Session 2: 1.00pm	Stanley Road Waste Facility Lot 45 Stanley Rd, Australind
Wednesday 19 th May	Session 1: 11.00am Session 2: 1.00pm	Stanley Road Waste Facility Lot 45 Stanley Rd, Australind
Tuesday 25 th May	Session 1: 11.00am	Waste Operations Depot: 10 Sutherland Way, Picton
Wednesday 2 nd June	Session 1: 11.00am Session 2: 1.00pm	Stanley Road Waste Facility Lot 45 Stanley Rd, Australind
